

Health And Safety Policy Statement

Coverstaff is committed to providing a safe and healthy environment for all personnel, contractors and visitors to the company's site, and ensuring the safety of personnel representing Coverstaff on sites not directly in the control of Coverstaff.

Management are committed to ensuring they have an understanding of Health and Safety management relative to their position.

Management will:

- Comply with all relevant health and safety legislation, standards and codes of practice
- Ensure the identification and assessment of all hazards in the workplace
- Control all significant hazards on Coverstaff sites
- Identify and communicate the risk and significant hazards at sites not directly in the control of Coverstaff
- Provide health & safety training and supervision in the form of induction and ongoing employee representation
- Provide staff with the opportunity to be involved in the hazard management process and injury reduction objectives
- Support and promote rehabilitation ensuring injured staff return to work safely as early as possible
- Promote a system of continuous improvement, including the annual review of policies and procedures
- Undertake Health and Safety training appropriate to their role

Employees will:

- Actively contribute to hazard identification and injury reduction process
- Participate in health and safety training and incentives
- Adopt and abide by safe work practices and procedures
- Encourage others to be involved in health and safety
- Report injuries promptly, accurately and participate in investigation
- Participate in rehabilitation and return to work programmes
